

Adopt a family: Advent-Christmas-New Year

What if we use Christmas as a way of building relationships that last beyond Christmas services? What if our focus is on Christmas as a way to connect with new families and friends for the year ahead? Instead of seeing families once a year at our Christmas services, our church members connect with them throughout the year ahead? Try this simple approach:

- During Advent, encourage everyone to adopt a family outside of church and go for a walk or to do something easy as a family together before Christmas.
- Organise a walk or get together for the New Year – Set a date! It's no good saying "Let's do this again." Actually book the date and show your commitment to the relationship
- Invite them to go with you to the Christmas Crib Service/Carol Service – whatever they and you would enjoy
- Go for that walk or share a meal together in the New Year
