

The Bishop's Green Badge Award

God created the world, the land
and the seas.

He made and loves all the things
that live in his world. The plants,
the animals and all the people too!

It is important that we look after
God's world.

Let's explore how we can do that!

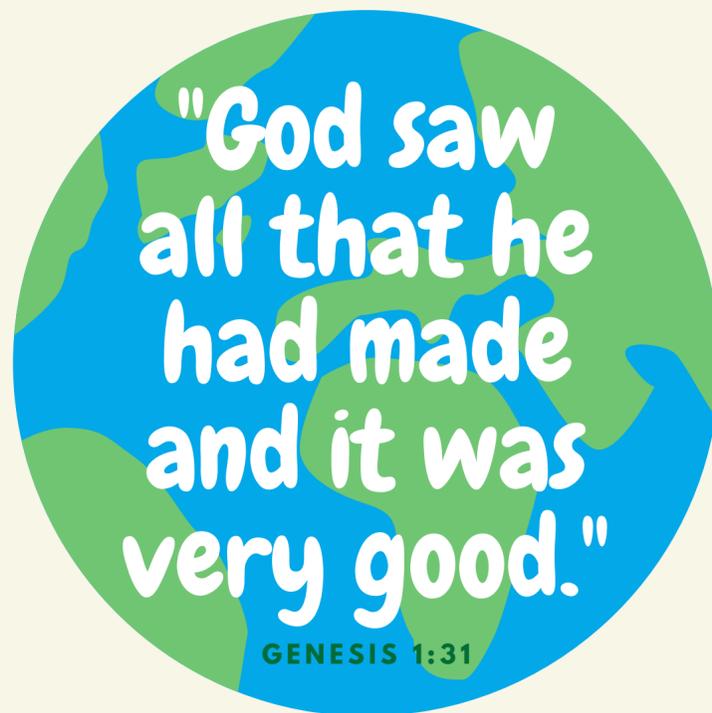

Here are some ideas for you to care for
God's creation

God's Plants

God's People

God's Animals

You can also try some of your own ideas!

God's People

Who do you love? Thank God for them and think about how you can show them your love. You could draw them a picture, make a card or give them a hug.

Is there someone that needs your help? Can you plan with a grown-up how you can help someone. You could go for a walk with them.

With a grown-up, find out where in the world they don't have clean water. Pray for them and thank God for water. Ask God how can you help.

God's Plants

Go for a walk and look at the plants. Take photos of your favourites and find out more about them.

Plant some wildflower seeds for the bees and butterflies

Why do you think God made trees? Trees are good for our world. Why not try and plant a tree such as plant an apple pip.

God's Animals

Do you have pet?
How can you look
after a pet.

Spot different animals and
thank God for them

Plant a sunflower seed and the
birds can eat the seeds from
the sunflower

Why do you think God made animals? Can you think of
other ways to care for God's animals?

Well done!

What a star you are!

You have done some amazing things to care for God's creation!

Tell us what you have done for God's People, God's Plants and God's Animals

Send us pictures of what you have done for God's People, God's Plants and God's Animals
